# About Us.

MARC ENGINEERING Services SARL was incorporated in 2023 as a Limited company based in Lubumbashi, DRC. The company is gearing itself towards providing its clients with reliable engineering, industrial, and technical solutions across plumbing, electrical works, mining machinery, automation, construction, and safety equipment.

MARC ENGINEERING Services SARL is a multi-disciplinary company whose aim is to provide high quality goods, equipment, and services to all our clients. Our objective is to take a leading role in supplying the materials, tools, machinery, and technical expertise that businesses and establishments need to conduct their operations in the most efficient, safe, and cost-effective manner.

Our target is to deliver goods and services on time, without compromising on quality, while offering competitive pricing to our customers. We source and supply items that meet international quality and safety standards.

**Vision:** To become a leading multi-disciplinary engineering and industrial supply partner in Central Africa, recognized for reliability, technical expertise, and the highest standards of safety and service.

**Mission:** To equip businesses, industrial sites, and mining operations with the technical solutions, equipment, and skilled expertise they need to build, operate, and grow safely and efficiently.

# Our Products and Services.

MARC ENGINEERING Services SARL offers an integrated range of products and services designed to support businesses across the industrial, mining, and construction sectors.

## 1. Plumbing Work

Supply and installation of piping systems, water supply and drainage networks, fittings, and valves, along with maintenance and repair of plumbing infrastructure for industrial, commercial, and residential sites.

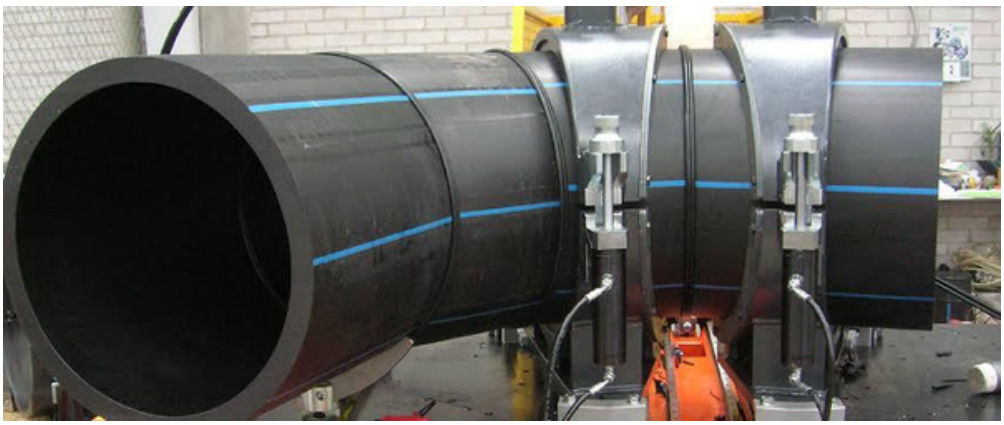

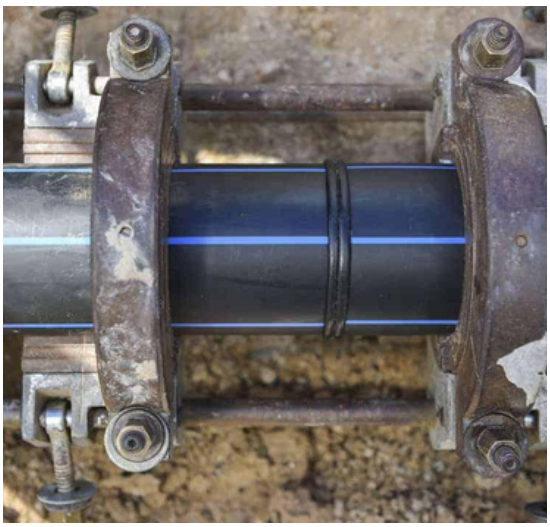

## 2. Welding / Bola Maker / HDPE Reducers

HDPE pipe supply, fusion welding, and installation for water, chemical, and slurry transport networks — including tank fabrication and lining solutions commonly required on mining and industrial sites.
